Get to Know TSA

The Technology Student Association (TSA) is a national, non-profit, Career and Technical Student Organization (CTSO) of more than 250,000 middle school and high school student members engaged in science, technology, engineering, and mathematics (STEM). Since 1978, TSA has promoted STEM education and careers to almost 4,000,000 student members through curriculum integration; competitive events; regional, state, and national conferences; and leadership opportunities.

"From an administrator's point of view—TSA has a profound impact, allowing student members to deepen their interests in STEM. TSA promotes collaboration and problem solving that pertain to real-world skills. The competitive aspect can allow students to travel and experience a broad spectrum of enrichment opportunities. TSA greatly adds considerable value to our students and to our school."

WHY TSA?

IMPACTS ENTIRE STUDENT POPULATION: TSA offers a wide range of 70, STEM-based, competitions to appeal to any student in your school.

Competition examples include:

- – Cybersecurity
- – Forensic Science
- – Video Game Design
- – Dragster Design
- – Medical Technology
- – Fashion Design & Technology
- – Debating Technological Issues
- – Leadership Strategies
- – Computer-Aided Design (CAD), Engineering

INTRA-CURRICULAR: TSA strategically correlates with core STEM educational standards.

ADVANCES WORKFORCE DEVELOPMENT: All TSA competitions are aligned with the U.S. Department of Education's National Career Clusters Framework®. TSA also partners with CompTIA, the voice of the information technology industry, to fill the IT career pipeline with the next generation of STEM leaders.

PROVIDES LEADERSHIP DEVELOPMENT: A leadership component is integrated into every TSA competition to develop confidence—soft skills such as public speaking, teamwork, and problem solving—critical for college and career preparation.

OFFERS ACCESS TO SCHOLARSHIP OPPORTUNITIES: TSA provides scholarship opportunities to students. Current scholarships include the William P. Elrod Memorial Scholarship and the CompTIA Future Technologists Scholarship.

It all adds up to success for your school.
