

Discover the
**Technology Student
Association**

Explore all that TSA has to Offer

What is TSA?

The Technology Student Association (TSA) is a national, non-profit organization of 250,000+ middle and high school students engaged in science, technology, engineering and mathematics (STEM). Since TSA was chartered in 1978, over 4,000,000 student members have participated in challenging competitions, learned new leadership skills, engaged in community service projects, and much more.

Why TSA?

TSA offers student members invaluable benefits to enrich their learning and hands-on experiences relating to STEM inside and outside the classroom.

Benefits include:

- 70 challenging STEM competitions relating to a wide range of fields
- Leadership training
- Exposure to STEM career options
- Scholarship, awards, and recognition opportunities
- Local, state, and national level competitions and conference opportunities
- Nationwide service project to support the American Cancer Society
- Connections with fellow members and industry professionals
- Networking opportunities with members and industry professionals

“TSA is an opportunity for students to participate in a chapter built around their interest in STEM and to compete in events that incorporate STEM principles and ideas. TSA provides a voice in a national organization that is helping shape the future of technology education.”

— SCOTT FETZER

Engineering Teacher, Butler Tech, OH
